Miranda,

I think attending the WebEx is just fine. The only reason to attend in person would be to meet & informally chat with some of the Ecology folks doing this work, or involved in this work (e.g. Dustin).  
I'm glad you can attend remotely!

I would like to attend. I'd prefer to attend the WebEx, but Laurie do you think it would be better for me to attend in person?

Laurie, thanks for sharing. This looks pretty interesting and I will plan to attend by Webex. It would be good if one of you also attend because I expect to be double-tasking with Columbia stuff. -BC

Ben & Miranda,

Are either of you (or both of you?) able to attend the 8/22 nutrient forum? Miranda, if you aren't able to attend I'll attend the WebEx and fill you in later.

Greetings,

You are receiving this email because of your interest in the Puget Sound Nutrient Forum. We are gearing up for the next meeting on August 22, 2018, from 10:00am – 3:00pm. You can attend in person at Ecology's headquarters building in Lacey ([300 Desmond Drive SE](#)), or by WebEx. Please note that Lunch **will not** be provided. There is a full cafeteria located in the Ecology building.

This meeting will continue to share presentations on science and research that helps inform our understanding of nutrient over-enrichment in Puget Sound. Our guest speakers include:

- Stephanie Jaeger and Kim Stark (King Co) will talk about long term water quality trends for nutrients and processes that impact these dynamics

- Jan Newton (UW) will talk about Puget Sound basin dynamics, what a concentration actually represents, and mechanisms for nutrient fluxes
- Gabriela Hannach (King Co) will talk about Algal bloom dynamics, phytoplankton species composition, and what we can say about drivers
- Bart Christiaen (WDNR) will talk about potential impacts of nutrient over-enrichment on nearshore habitats, with a focus on eelgrass and kelp
- Rich Scheibley and Bob Black (USGS) will talk about watershed nutrient attenuation and natural function

Please take a few minutes to respond to our registration survey so that we can plan for attendance (<https://www.surveymonkey.com/r/YLMHMMN>). The survey will identify if you'll be attending in person or via WebEx (**if you plan to attend by WebEx, please don't forget to click on that second link to register for the WebEx!**).

If you haven't already, **please sign up** for the Puget Sound DO listserv to receive all notifications (<http://listserv.ecology.wa.gov/scripts/wa-ECOLOGY.exe?GETPW1>). Feel free to forward this to others you think may be interested.

Information from previous Forums can be found on the Puget Sound Nutrient Source Reduction Project web page: <https://ecology.wa.gov/Water-Shorelines/Puget-Sound/Helping-Puget-Sound/Reducing-Puget-Sound-nutrients>

See you soon!
